

Torre Del Obispo

Set in five million square feet of beautiful countryside, Torre del Obispo is one of the most stunning new developments in south-east Spain.

South of the legendary town of Lorca in Murcia, some 500 metres above sea level, Torre del Obispo features two residential areas with large semi-detached homes, terraced apartments, communal gardens, seven swimming pools and a pitch & putt course. The development is a secure complex with controlled access.

Our golf facilities include: a large number of tees of both natural and artificial turf with the possibility of night-time lighting; a large practice bunker; two greens to practice chips and putts; a large putting green and vending machines supplying practice balls on the practice course. You can also enjoy our extensive landscaped areas for walks or bike-riding and other activities that the whole family will enjoy. Our sports centre offers tennis, paddle and squash courts and the complex also boasts several swimming pools in its wide range of facilities

Murcia

boasts an incomparable climate all year round with more than 300 days of sunshine a year. With some 250 kilometres of Mediterranean coastline boasting crystalline waters and dazzling white sandy beaches, Murcia is one of the least spoiled regions in Spain. Torre del Obispo is connected by motorway to Murcia, Almeria and Granada, and from Murcia to Madrid and Cartagena.

The development is served by three airports within easy driving distance - Almeria, San Javier at Murcia and Alicante.
