

Saladillo Golf

Mazarron is situated in an extensive coastline which welcomes you to enjoy water sports, sunbathe, meander through its undiscovered coves or explore the unique depths of its seabed. A mosaic landscape lets you get in touch with nature, discover emotions and participate in unique experiences. The surrounding areas have many tasty dishes on offer, that include primarily products from "la huerta" - The irrigated region of Murcia and the sea. There is also the temptation to enjoy yourself too much with its entertaining nights out and its various traditional festivals. The Mazarron area is sun, crystal waters and amazing landscapes. This paradise, found to the Southwest of the Murcia region, was a home to Arabs, Phoenicians and Romans, all of whom succumbed to the charms of the bay and whose influences are today a part of its living history.

You will find more than 30 beaches just 9 miles away which await you, with something for everyone: stone, sand, and even deserted beaches... along with the reclusive coves such as the La Amarilla, Cueva Lobos and La Grúa where you will enjoy a peaceful and tranquil spot away from the crowded and noisy beaches, a journey to recuperate and refresh yourself with natural energy. The "Erosiones of Bolnuevo" is one of the areas most attractive places to visit. A strange landscape, almost magical, in that the wind and water erosion of the area, has created an ever changing rock formation. A peaceful location where you can let your imagination run wild.
