

Hacienda del Alamo

In 1999, when Armilar Procam decided to build a luxury Resort in Murcia and surround it with one of the best golf courses in Europe, the idea was considered to be fairly novel, and perhaps a little risky. But you only have to take a look at the number of developers attempting to imitate us today to see that it was visionary!

Today, as interest in golf continues to boom, what better place to play than the new Hacienda del Álamo, where the sun shines 320 days of the year?

Come and see us, and compare us with the rest. If you're thinking of buying a house that you will really enjoy living in, then you'll surely wind up at Hacienda del Álamo. And, one sunny day, as you are taking breakfast on your terrace before going out to play 18 holes of golf, you'll be glad you made the right choice.

The difference between good and excellent is usually in the details and when you choose one of our properties you'll notice that the standards of quality and finishing are much higher than average. And, as the percentage of land that can be used for building is low (12%), the houses are not built "up against" each other. If you would like more details on our extensive selection of homes, we suggest that you request information for each construction phase from Baker Long Properties.S.L.

We also have 24 hours security, two-lane roads for driving around the Resort and many other services, such as having your house aired if it's closed for a long time! But perhaps the best example is the Hacienda del Álamo's fibre optics, connecting you to the world using state-of-the-art technology. The best Internet, telephone and cable-TV connections are just a few examples of how you can have both leisure and work activities at hand, without ever leaving the house. Or without ever leaving your garden, as you will also have access to the WiFi wireless network. You can reserve golf games from any part of the Resort. And should you start feeling guilty about the life of leisure that you lead and want to work a little… don't worry! You never have to be far from your business, even when you're sitting by the pool.

If you're passionate about golf you're sure to fall in love with Hacienda del Álamo in no time at all. And if you're not a golfer, you soon will be! Because here golf's not just a sport - it's a lifestyle, where you'll make new friends and play in the fresh air of the Resort's rolling, green countryside.

Our Golf Course is an impressive 92 hectares. It's wide and spacious, with long holes and lots of lakes and it's very soft because it's built on natural ground. Nevertheless, there are some very well-planned obstacles. Its 6700 metres take five hours to play and there are tee-offs every ten minutes, even on very busy days. There is no such thing as a "slow game", so you can enjoy the course calmly, without hurrying. It's incredible how soon people get used to this pace of life.

The resplendent design of the Clubhouse's exterior, which opened in November 2007, is echoed within, so that time spent off the course will be great too. Whether it's the events hall with its beautiful terrace, the restaurant, the Spike Bar, where the loser buys the round, the Pro Shop, the club storage room, or even the changing rooms, they will all be spacious and elegantly designed.

In our "high-performance" Academy are 36 drive boxes, and no less than six par 3 and par 4 practice holes, two putting greens and bunkers. If it's true that the better you are the more you enjoy playing, then you'll soon be walking on air. We've got the highest qualified professionals here to teach you.

So that you don't want for anything, you'll find a specialist Golf Shop in Hacienda del Álamo, where you will be offered professional advice and find the latest golf equipment.

With a superb selection in so that you can practice your favourite sport in style, with the best brand names as well as Hacienda del Álamo's exclusive designs.
